Modern Psychoanalysis expands upon the psychoanalytic principles first introduced by Sigmund Freud. By introducing new techniques, modern psychoanalysis allows for the treatment of a broad range of emotional disorders in a variety of settings. It aims to loosen repetitive and rigid patterns of thinking and behavior. This approach has proven valuable to those working in the fields of social work, mental health, education, the law, business, and the arts.

The Center for Modern Psychoanalytic Studies (CMPS) holds an absolute charter from the State of New York to offer a Certificate in Psychoanalysis and is recognized by the State of New York as a licensure-qualifying institute for those seeking licensure in psychoanalysis.
