Course Description
Core psychoanalytic concepts are defined and major developments and divergences in psychoanalysis are examined. The relationship between theory and clinical practice will be investigated.

Objectives
The student will be able to:
- define basic psychoanalytic concepts and theoretical constructs; and
- compare and contrast different theoretical, clinical and research developments that have evolved over the past century.

Method of Evaluation
Students will be evaluated based on class participation, oral presentations, written logs, and a 10-page research paper on a topic related to the course. The paper should employ a minimum of five citations, and follow the editorial style used in the journal *Modern Psychoanalysis*. Logs can be emailed to me at dangilhooley@yahoo.com.
